Mr. Sydney P. Noe,
American Numismatic Society
New York

Dear Sir;

I am sending herewith the coins I wrote regarding in letter of July 22d and shall appreciate any information you can give me. I suppose that there are a million or more like them, but thought I should like to find out. I am enclosing return postage and registry fee.

Yours truly,

Wilbur W. Mason

P.S. I also have paper money as follows
Mass. State Pine Tree Shilling 1778
Colony of Mass. Bay 1775 one shilling sixpence
Continental Currency bills 1778 $40 and $50
One dollar bill 1800
Can you tell me anything about them?

September 2nd, 1922.

Mr. Wilber W. Mason,
Springfield,
Vermont.

Dear Sir:-

The three coins you sent are Roman coins struck in their colonies in the East. The small thick one is from Egypt, the other two from Syria. They are worth altogether about twenty-five cents.

The paper money you mention has but little value. These notes sell anywheres from ten to twenty-five cents each.

Very truly yours,

Curator.
